Ilia Pavlovskii

Android Engineer

👤 Profile

Hi there, I'm Ilia Android Engineer with 10 years of experience. I have more than 20+ successfully completed projects, participation in open source, tech writer(habr / medium) and QnA participant.

Deep knowledge of android architecture, design patterns, mobile CI/CD. Specialize in product development. Interested in business, finance, psychology, and tech reading; extreme mobile architecture and trend(pop) mobile technologies.

💼 Employment History

Android Engineer at Humans Group, Minsk / Warsaw

January 2020 — Present

Humans.uz is a telecom-banking-marketplace platform in Uzbekistan.

Technical and resource management. Increasing feature delivery speed: setup decomposition and development process between features(usually 2-4 persons by 1 feature); decrease build time - split technical parts of the application by modules and pack it to the binary storage. As a result increase feature delivery time from 2 months to 3 weeks.

Android Engineer at Yandex, Minsk

June 2018 — June 2019

Yandex Browser. Chromium fork for android mobile application.

Development GUI features, work by quotes: bugfix, feature and automation QA.

Improve team adaptation process with the transformation from Java to Kotlin as a main project language by formalization and integration kotlin lint rules.

Other work experience:

- **HiQo Solutions, Inc.**(Android Engineer); Jun 2019 - Jan 2020
- **Yellow**(Android Engineer); Jun 2015 - Jun 2018
- **ITM House**(Middle Android Developer); Oct 2014 - Jun 2015
- **Vega Systems**(Middle Android Developer); Feb 2014 - Sep 2014
- **Medical Software Solutions**(Junior Android Developer); Nov 2012 - Feb 2014
